

# STATION IX

MULTIMMERSIVE EXPERIENCE™

IMAGINE 4D

A MULTIMMERSIVE DISPLAY  
DESIGNED FOR PROFESSIONALS

## ABOUT STATION IX™

Imagine 4D's flagship product is Station IX™, the Multimersive Experience™. Driven by our proprietary technology, Reflected Reality™, Station IX™ is a collaborative and interactive display system that allows groups of users to view high-value 3D content in a headset-free environment. This unique tool has been designed to help organizations plan for the future, promote decision-making and minimize risks. Station IX™ is a must for training, sales and project management.

## KEY FEATURES

- **Reflected Reality™:** Imagine 4D's proprietary curved mirror technology, Reflected Reality™ (RR), creates a realistic sense of depth, true immersion and 3D visualization without the need for headwear of any kind.
- **Collaborative:** Station IX™ is a team-friendly, headset-free environment, allowing multiple users to easily interact with each and collaboratively manipulate projects in real-time.
- **Highly Efficient:** Station IX™ eliminates eye fatigue, dizziness, costly miscommunications and other shortcomings of virtual reality headgear technology. Users can spend extended amounts of time inside the 3D environment designed to ensure effortless collaboration and interactivity.
- **Versatile:** Designed as an open architecture, Station IX™ comes with a full-featured SDK combined with plug-and-play support compatible for any leading game engine and image generator 3D content.
- **Minimal Maintenance / Updating:** 30-year service life with minimal maintenance.

## INDUSTRIES

---

- Real Estate (Commercial, Industrial & Residential)
- Architecture, Engineering & Construction (AEC)
  - Defense & Security
  - Power Generation

---

## THREE FORMATS

---

### Workstation

Supports up to 2 users  
16' diameter

### Theater

Supports up to 6 users  
22' diameter

### Auditorium

Supports up to 15 users  
27' diameter

## ABOUT IMAGINE 4D

---

***We are 3D Visualization Experts.***

Immersive visualization solutions drive our passion. Imagine 4D's team of experts in virtual reality solutions design technologies that foster collaboration, build trust and accelerate decision-making in the workplace. Our expertise in immersive 3D visualization will help maximize the potential of your high-value 3D assets.

Discover our innovations: Station IX™: The Multimersive Experience™ and our Digital Twin Solutions.
